

Cisco's Enterprise Mobility Management: **In Hospitality**

Meraki Systems Manager (SM), Cisco's Enterprise Mobility Management (EMM) solution, allows administrators to easily manage mobile phones, tablets, laptops and desktops. Devices, applications, and users are simply managed via the Meraki Cloud Dashboard to secure corporate assets, improve IT process, and delight customers & guests.

Empower Hospitality Teams

Manage Corporate Operations

Transform Guest Experiences

WHAT SYSTEMS MANAGER (SM) DOES

HOW SM TRANSFORMS THE HOSPITALITY EXPERIENCE

UNIFIED ENDPOINT MANAGEMENT iOS, macOS, Android, Windows 10 & MS Server	Monitor, provision, and secure BYOD & Corporate assets—including desktops, laptops, tablets, and phones
MANAGE CORPORATE OPERATIONS Apple App and Google Play Store integration Cloud hosting, provision email, Wi-Fi & VPN Collaboration, LDAP, Active Directory & more	Enable team collaboration Integrate processes, systems, and directories Reduce operational costs Increase efficiencies
EMPOWER TEAMS Live tracking, analytics, audits and reports Simple device provisioning and user management	Provide real-time access to information Improve team effectiveness and reduce IT time Utilize remote control and troubleshooting
TRANSFORM GUEST EXPERIENCES Enable access to content, media, and brochures Provide secure and convenient connections	Increase brand loyalty Personalize guest experiences Enhance guest connections
SPECIAL 'BONUS' FEATURES! The only EMM with native network integration Work better, directly w/ the Cisco Meraki networking stack	Manage mobile devices and the network in the same dashboard providing not just an easier experience but a better and more robust solution

Simple Pricing

With Cisco's EMM, one license includes all features, even 24/7 support, regardless of device type.

What Customers are Saying

"The Cloud features of Meraki and the plug-and-play installation shaved at least a month off our deployment"

– Chris Biggers, IT Manager, Boutique Hotel Collection

"My goal as an executive is to bring our services to a higher level and do it better, faster, and for less; the Meraki tools allow us to do that" – Doug Reczko, VP of IT, Brookstone
